Distribution level	Public			
Due date	31/05/2016			
Sent to coordinator	02/06/2016			
No. of document	D9.3			
Name	<i>Final assessments of RepAIR results</i>			
Type	<i>Report</i>			
Status & Version	V5.0			
No. of pages	44			
Work package	9			
Responsible	OGA			
Further contributors	<i>CU, AIMME</i>			
Authors	<i>Ingrid Sánchez-Diezma Guijarro, Ogayar Consulting Roger Abella Rodríguez, Ogayar Consulting Juan José Martí Ogayar, Ogayar Consulting</i>			
Keywords	<i>Evaluation, verification, Field Trials, requirements, objectives</i>			
		Date	Author	Comment
	5.0	02/06/2016	OGA	Submitted to PC
	5.1	21/06/2016	UPB	Finalisation after clarifications due to QA review results

The research leading to these results has received funding from the European Union Seventh Framework Programme (FP7/2007-2013) under grant agreement n°605779.

Executive summary

This document is part of the task of WP9, which purpose is the Final assessments of RepAIR results.

The purpose of this document is to compare and assess the degree of fulfillment of the requirements defined in D1.2-2.5 based on the results of D9.2

Section 2 is a compilation of the requirements divided by systems and components with evaluation results.

Section 3 the field trials are analyzed to check the final assessments of results. In this case, the results of field trials are commented one by one in order to analyze if the objective has been accomplished or not.

Section 4 it is going to resume in which manner, the abovementioned field trials, cover each objective, as per D9.1 and D9.2
